

COMPARISONS

Cellular Time-lapse Webcam Service

❖ The DoxCam Time-lapse webcam system has been engineered specifically for those looking for an easy-to-use, yet affordable way to use nearly live images for marketing, team collaboration and job site management.

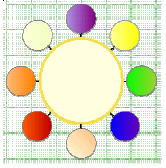

❖ DoxCam is the only WebCam service that provides a fully integrated markup feature that allows you to add comments, changemarks™ and measure. This allows in-depth collaboration in real-time.

❖ DoxCam, with Spacedox, is the only WebCam service that can provide 3x24x365 access to, not only the jobsite images, but to all the blueprints, documents or any other file that your team may need access to. All with one click of the button over the internet.

Below is a comparison of DoxCam and other similar services.
